Clifton Gorge State Nature Preserve

This 268-acre preserve protects one of the most spectacular dolomite and limestone gorges in the state. Registered as a National Natural Landmark in 1968, Clifton Gorge encompasses a 2-mile stretch of the Little Miami State and National Scenic River, just east of John Bryan State Park.

Geologically, it is an outstanding example of interglacial and post-glacial canyon cutting. At one point, the river funnels through a deep, narrow channel, which was apparently formed by the enlarging

and connecting of a series of potholes in the resistant Silurian dolomite bedrock. In other sections of the gorge, cliff overhangs have broken off forming massive slump blocks scattered along the valley floor.

The shaded, north-facing slopes provide a cool, moist environment for northern species including hemlock, red baneberry, Canada yew, arbor-vitae and mountain maple. This is one of the most spectacular sites in the state for viewing spring wildflowers including the rare snow trillium.

Ohio Chautauqua Returns

Last summer, a huge red and white striped tent went up behind the old school building in Clifton. Under the tent were rows and rows of chairs, five hundred in all, neatly arranged around a stage. The seats were close to full each evening for five straight days. The Ohio Chautauqua had come to town. The unique blend of living history performances, music, education, and audience discussion, made for a memorable experience for the thousands who attended. So much so that when it all wrapped up just before sundown on the 4th of July, it was already something that felt familiar, as if Clifton had been a regular stop on the Chautauqua circuit all along.

Many remarked on the quality of the performances, the compelling stories, and the magical experience

of traveling back in time. All were impressed with positive impact the event had on the community. Soon there was talk of bringing the Ohio Chautauqua back to Clifton and making it a regular bi-annual event (the production cycle runs for two years before changing theme and characters, so the program can be hosted at the most, every second summer). After careful deliberation, it was decided that the hard work and planning required were well worth it, and Clifton applied this spring to host again in 2017.

We are proud to announce that Clifton was chosen unanimously by the Ohio Humanities site selection committee, among over a dozen other applicants across the State! The other host communities chosen are Warren (Trumbull County), Burton (Geauga County), and

Milan (Erie County). The actors will explore this cycle's theme, "The Natural World," portraying a variety of historical figures, including Theodore Roosevelt, Marie Curie, Dian Fossey, Chief Cornstalk, and Mary Shelley. Each character weaves a story from the common thread of the over arching theme, from the perspective of their unique place and time in our history. The effect of this format, blending history, theater, and audience participation, is a delightful, thought provoking experience, whether you choose one particular performance or attend them all. The programs are free and open to people of all ages.

So, please consider yourself cordially invited to join us next summer to this beloved event, back as it were, by popular demand. The Village of Clifton is a historic treasure among many small towns across the Nation that inspires a sense of nostalgia, and reminds us that history is alive. Those who struggled, often against great odds, to make their mark on the world and change our ways of thinking and living, are remembered today, not only in the great halls of academia, but in rural and small-town America, on grassy lawns under a big top traveling tent show called Ohio Chautauqua.

Independent Order of Odd Fellows

Lodge #279 – Yellow Springs, OH

We are Odd Fellows

**To Improve and Elevate the
Character of Mankind...**

In 18th Century England, it was odd to find people organized for the purpose of giving aid to those in need and pursuing projects for the benefit of all mankind. Those who belonged to such an organization were called "Odd Fellows." Odd Fellows are also known as "The Three Link Fraternity" which stands for Friendship, Love and Truth.

Today, the Odd Fellows is a worldwide fraternal Order having over 10,000 lodges in 25 countries. We are actively involved in a variety of civic and philanthropic efforts on a local, national and international level.

The Clifton Opera House

5 South Clay Street, Clifton OH

Clifton Opera house is a beautifully preserved concert hall that was built in 1893. Originally known as the town hall, it has been a venue for minstrel shows, medicine shows, school plays, church activities, style shows, dinners, dances, weddings, meetings, all variety of concerts, theatrical productions, and even basketball games. The tower was taken down in the 1920s and the building was not used for many years. Then, in 1978, part of the north wall fell in. Howard Printz, then President of the Clifton Historical

Society, began raising funds to save the historic building. Thanks to his dedicated work and the generosity of the donors who cared so much for the Opera House, it is restored and continues to be a valuable part of the Clifton community. The Opera House is owned by the Village and managed with the help of Brian Ehlers, the Opera House Event Coordinator.

See our upcoming shows listed in the summer/fall event schedule (pp. 28-29). The Opera House can also be rented for private events. For more information call (937) 342-2175.
